

RULE: Parsing = identifying every word's grammatical role and case ending. Heart of classical Arabic.

Case	Name	Vowel	Used For
Nominative	مرفوع	damma -	Subject, predicate of nominal sentence
Accusative	منصوب	fatha -	Object, predicate of كان/إن, haal, tamyeez
Genitive	مجرور	kasra -	After prepositions, 2nd noun of idafa
Jussive	مجزوم	sukoon	Verb after لا الناهية، لم، conditional

★ Parse: ■■■■■■ ■■■■■■■■■■ ■■■■■ ■■■■■■■■■■■■ → ■■■■■■=past verb,
■■■■■■■■■■■=subject(damma), ■■■■■=prep, ■■■■■■■■■■■■=genitive

★ Classical scholars parsed every Quranic word — this preserved the Quran's exact meaning for 1400 years

★ Start by identifying: subject (damma), object (fatha), after preposition (kasra)
