

Introduction to Tajweed

■ This is a study companion for your Tajweed course. Each bullet point is a key concept from the video lecture. Review these pointers before or after each lesson.

What is Tajweed?

- Tajweed (■■■■■■■■■■) literally means 'to make better/improve'
- In Quran recitation: pronouncing each letter from its correct articulation point with proper characteristics
- Exactly as the Prophet Muhammad (peace be upon him) recited

The Quranic Command

- ■■■■■■■■ ■■■■■■■■ ■■■■■■■■ — Recite the Quran with tarteel (proper recitation)
- Surah Al-Muzzammil (73:4)
- Allah Himself commanded us to recite properly — it is an obligation, not optional

Why Mispronunciation Matters

- One wrong letter can change the meaning entirely
- Example: Haa (■) vs Kha (■) — different letters, different meanings
- Tajweed protects the Quran's meaning exactly as revealed
- It is also a form of honouring the words of Allah

What You Will Learn

- Makhaarij (■■■■■■■■) — Where each letter originates in the mouth/throat
- Sifaat (■■■■■■) — Characteristics of each letter (heavy/light, voiced/whispered)
- Noon Sakinah rules — 4 rules for the letter Noon without a vowel
- Meem Sakinah rules — 3 rules for the letter Meem without a vowel
- Madd (■■■■) — Elongation: how long to stretch each vowel
- Qalqalah (■■■■■■■■) — The 5 bouncing letters
- Waqf (■■■■) — How and where to pause during recitation

Key Hadith

- 'The best of you is the one who learns the Quran and teaches it.' — Prophet Muhammad (Bukhari)
- 'Whoever recites the Quran beautifully, smoothly, and precisely, will be in the company of noble angels.' — (Muslim)
- Tajweed is the closest you can come to the recitation of the Prophet himself
