

RULE: 5 main articulation areas. Every letter must come from its correct point to be properly pronounced.

Area	Arabic Name	Letters	Note
Empty Space	الجوف	Long vowels: Alif Waw Ya	Sound resonates in open cavity
Throat	الحلق	ء ه — ع ح — غ خ	3 levels: bottom, middle, top
Tongue	اللسان	18 letters total	Root, middle, tip of tongue
Lips	الشفتان	ب م و ف	Ba/Meem: lips meet; Fa: lip+teeth
Nasal Cavity	الخيشوم	Ghunnah of ن and م	The humming nasal sound

□ 6 throat letters: ء ه ع ح غ خ — at 3 levels. In English they all sound like 'h', in Arabic they're 3 distinct letters!

★ **Physical exercise: touch throat while saying throat letters — feel different vibration levels**

★ **Same makhraj + different sifa = different letter. That's why 28 letters come from only 17 points**
